

Marcos Gutierrez

Full Stack Developer | Ruby on Rails | EmberJS | QUnit | RSpec

juangura@gmail.com | <https://www.linkedin.com/in/marcos-gutierrez-85130a45/>

Summary

Experienced full-stack developer specializing in Ruby on Rails, EmberJS and Discourse plugin development. Proficient in testing with QUnit and RSpec. Passionate about open-source projects, creating efficient, scalable solutions and mentoring the next generation of developers.

Work experience

Aug 2022

Software Developer

Pavilion | London, England, United Kingdom · Remote

Part of a team of software developers working exclusively with Discourse, an open-source forum software. I provide custom solutions for clients as well as develop and maintain open-source plugins.

Lead Maintainer of:

- Topic Ratings Plugin
- Tickets Plugin
- Multilingual Plugin
- Discourse Category Lockdown

Jun 2021 — Apr 2023

Full Stack Developer

STEM-Away | Palo Alto, California, United States · Remote

- Built and deployed React websites with AWS/S3.
- Automated reports and user assignments via API/webhook integrations.
- Maintained and developed custom Discourse themes.
- Enhanced site reliability by optimizing plugins, reducing request count and improving stability.
- Mentored junior developers and students in frontend and full-stack pathways.

Mar 2012 — Jan 2017

Professor, Missionary, Translator

Palabra de Vida Bolivia | Bolivia

Taught various subjects, engaged in missionary work, worked as a summer camp director/coordinator, translated during live conferences, meetings and English-Spanish materials.
